Regular events:

Wednesday: PE

Thursday: Music, PE Enrichment

Curriculum information

This term, our topic is "Time Travellers." We will explore this theme in a variety of ways across different subjects,

Ideas for home

We would encourage you to read with your child at home when possible. We will be able to provide a selection of books and a reading record to accompany this.

General Information

Please continue to use the Home/School Journals to liaise with us and we welcome any questions you may have. Please ensure that your child has the appropriate named clothing for activities we are doing this year such as PE enrichment. PE Kit can be worn to school on a Wednesday. If your child would like to have a snack at playtime, please can this be sent in their school bag.

English

In English, we will continue to focus on adding punctuation to our written work and improving our handwriting. We will also work on being as independent as possible by using word banks and checklists when writing, with minimal support from the adults in our class.

As part of our 'Time travellers' topic we will be learning from a range of English texts which are linked to time and the past. These include: The wild way home, The stolen spear and The dinosaur that pooped the past. We will also be going back to World War II, focusing on the evacuation of children. We will explore what life was like for a child during the war and examine the different stages of being evacuated to live with a new family.

Maths

As part of our White Rose Maths programme, students will be learning about time, position and direction, and shapes. Pupils will also continue working on place value, as well as addition and subtraction with larger numbers.

White Rose
MATHS

Music

Pupils will develop their instrumental skills to play a range of melodies linked to 'The Big Reveal's' Intergalactic Emergency project; they will develop their notational skills to recognise pitched notes and rhythms to play as an ensemble. Pupils will continue to develop their listening skills to identify music from a range of historical periods.

Art

In Art this term pupils will be exploring pre-historic art such as cave paintings and rock paintings. They will be uncovering the meaning behind the symbols and creating stories out of symbols and images.

PSHE/RSE

Pupils will be following a programme called PELICAN (promoting emotional literacy in children with additional needs). We will be developing emotional resilience and creating self toolkits to support our young people's emotional regulation.

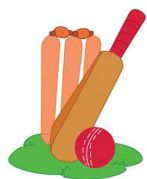

Preparation for Adulthood

Pupils will learn how to complete chores, routines and maintenance in the classroom and link this to household chores.

Physical Education

In PE, Robin class will be learning how to play a range of striking and fielding sports, including: tennis and quick cricket. We also have an exciting opportunity to represent Ifield School in a cricket tournament this term.

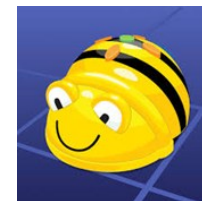

Religious Education

In RE, pupils will be learning how and why different faiths celebrate sacred events and holy days. We will be exploring festivals and celebrations that are experienced by people across a range of different faiths.

Computing

During computing, pupils will be using the Bee bots to understand programming and direction. They will explore using the Bee bots and lead into creating their own mats for the Bee bots for their peers to test.

Careers

For careers this term we will be looking at pre-employability skills and how we can find work.
