

# Homework/Extension

## Step 4: Count One More and One Less

### National Curriculum Objectives:

Mathematics Year 1: (1N1a) [Count to 20, forwards and backwards, beginning with 0 or 1, or from any given number](#)  
Mathematics Year 1: (1N2a) [Count, read and write numbers to 100 in numerals](#)  
Mathematics Year 1: (1N2b) [Given a number, identify one more and one less](#)  
Mathematics Year 1: (1N4) [Identify and represent numbers using objects and pictorial representations including the number line, and use the language of: equal to, more than, less than \(fewer\), most, least](#)

### Differentiation:

Questions 1, 4 and 7 (Varied Fluency)

**Developing** Identify if the representation shown is correct when finding one more or one less than a number. Representation shown with images up to 10.

**Expected** Identify if the representation shown is correct when finding one more or one less than a number. Representation shown with Base 10 up to 20.

**Greater Depth** Identify if the representation shown is correct when finding up to one more and one more again or one less and one less again than a number. Representation shown with Base 10 up to 20.

Questions 2, 5 and 8 (Varied Fluency)

**Developing** Match the representation to the correct number when finding one more than. Includes numerals and images up to 10.

**Expected** Match the representation to the correct number when finding one less than. Includes numerals and images up to 20.

**Greater Depth** Match the representation to the correct number when finding up to one more and one more again. Includes numerals, words and images up to 20.

Questions 3, 6 and 9 (Reasoning and Problem Solving)

**Developing** Explain if the function machine has correctly generated one less than the representation shown. Images up to 10.

**Expected** Explain if the function machine has correctly generated one more than the numbers and representations shown. Images and numbers up to 20.

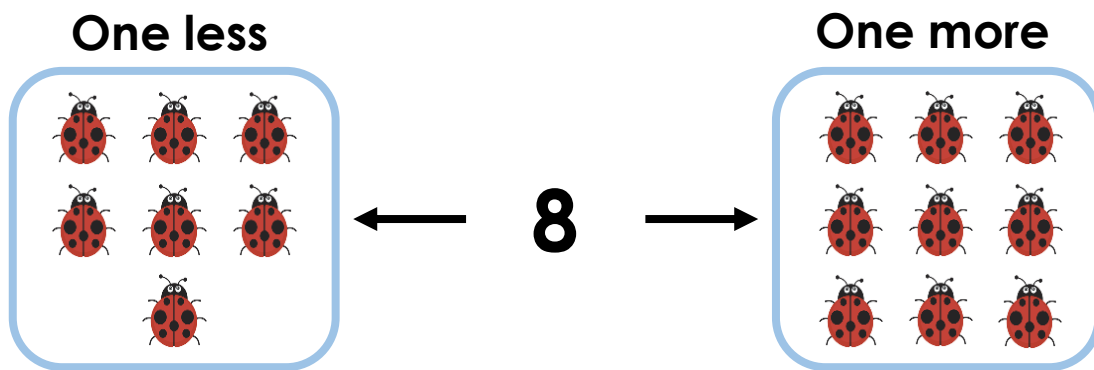

**Greater Depth** Explain if the function machine has correctly generated one less and one less again than the numbers shown. Numbers written as numerals and words up to 20.

# Count One More and One Less

1. True or false?

VF  
HW/Ext

2. Which number is one more than the image below?

10

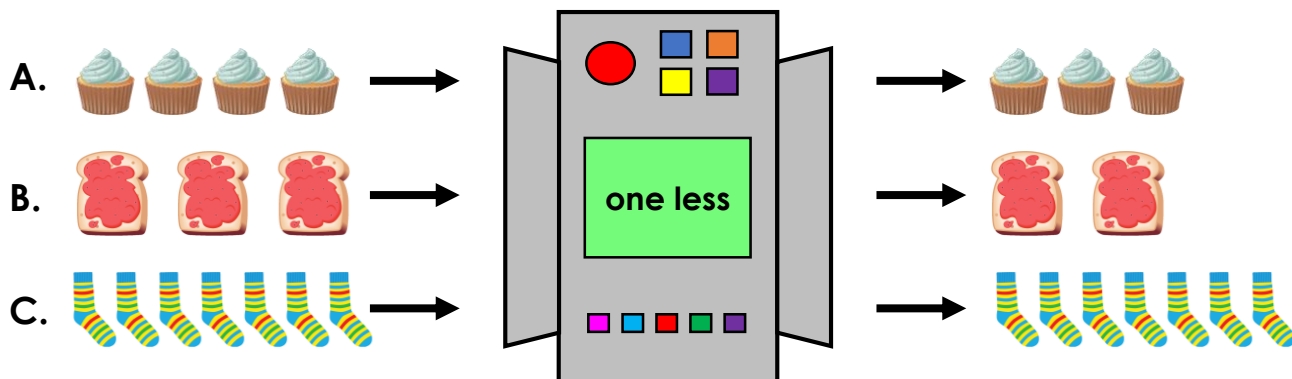

4

8

VF  
HW/Ext

3. The function machine finds one less than an image.

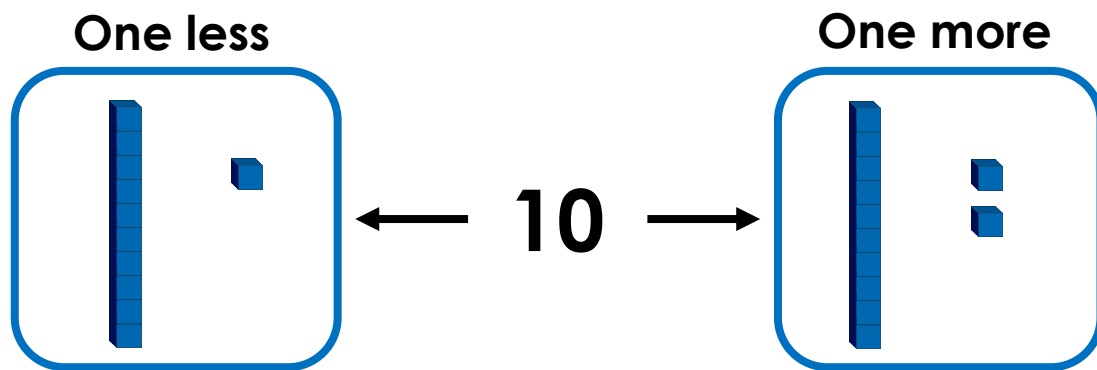

Are the answers correct? Explain your reasoning.

RPS  
HW/Ext

## Count One More and One Less

4. True or false?

VF  
HW/Ext

5. Which number is one less than the image below?

17

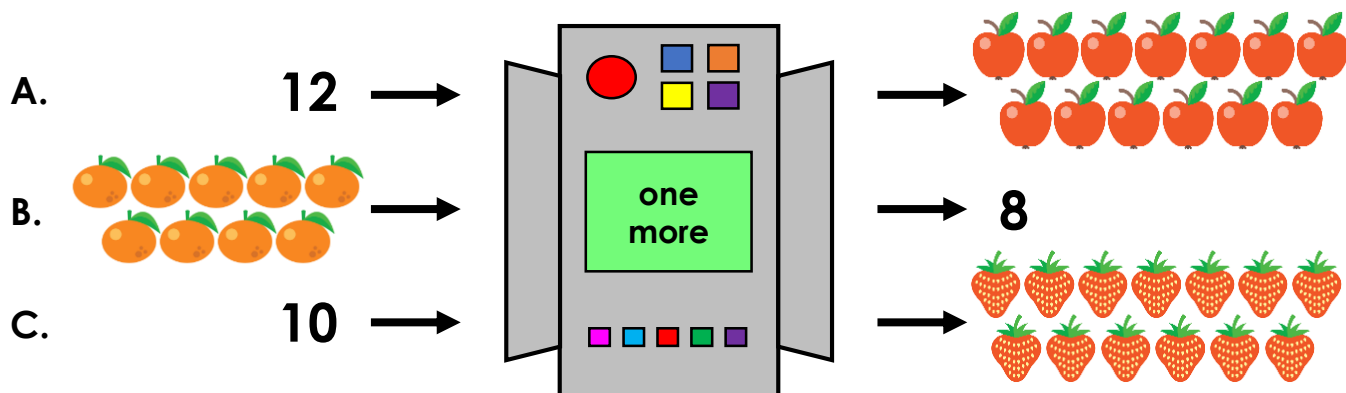

5

15

VF  
HW/Ext

6. The function machine finds one more than a number.

Are the answers correct? Explain your reasoning.

RPS  
HW/Ext

## Count One More and One Less

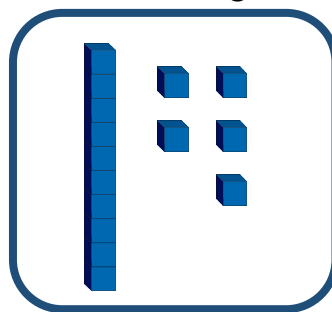

7. True or false?

One less and one less again

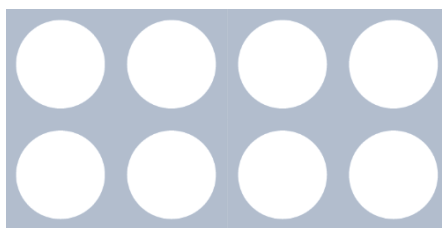

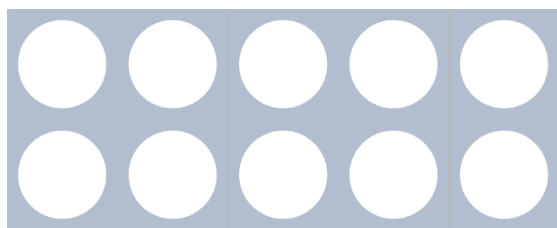

← **seventeen** →

One more and one more again

VF  
HW/Ext

8. Which number is one more and one more again than the image below?

sixteen

nineteen

20

VF  
HW/Ext

9. The function machine finds one less and one less again than a number.

A. **eighteen** →

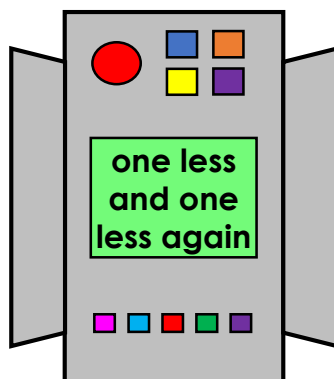

→ **seventeen**

B. **fifteen** →

→ **12**

C. **16** →

→ **fourteen**

Are the answers correct? Explain your reasoning.

RPS  
HW/Ext

## Homework/Extension

### Count One More and One Less

#### Developing

1. **True**
2. **10**
3. **No. C is incorrect because one less than 7 is 6.**

#### Expected

4. **False. One less than 10 is 9. One more than 10 is 11.**
5. **15**
6. **No. B and C are incorrect because one more than 9 is 10. One more than 10 is 11.**

#### Greater Depth

7. **False. One less than seventeen is 16, so one less again is 15. One more than seventeen is 18, so one more again is 19.**
8. **20**
9. **No. A and B are incorrect because one less and one less again than eighteen is sixteen. One less and one less again than fifteen is 13.**
