

Homework/Extension

Step 6: Recognise a Third

National Curriculum Objectives:

Mathematics Year 2: (2F1a) [Recognise, find, name and write fractions \$\frac{1}{3}\$, \$\frac{1}{4}\$, \$\frac{2}{4}\$ and \$\frac{3}{4}\$ of a length, shape, set of objects or quantity](#)

Mathematics Year 2: (2F1b) [Write simple fractions for example, \$\frac{1}{2}\$ of \$6 = 3\$](#)

Differentiation:

Questions 1, 4 and 7 (Varied Fluency)

Developing Sort shapes into a table according to whether they have one third shaded or not. Using only circles, squares and quadrilaterals.

Expected Sort shapes into sorting hoops according to whether they have one third shaded or not. Using circles, triangles, quadrilaterals and polygons.

Greater Depth Sort shapes into a Carroll diagram according to whether they have one third unshaded or not/have equal or unequal parts. Using circles, triangles, quadrilaterals and polygons.

Questions 2, 5 and 8 (Varied Fluency)

Developing Fill in the blanks in three sentences using the cards provided. Using a circle as visual support.

Expected Fill in the blanks in three sentences using the cards provided. Using a triangle as visual support.

Greater Depth Fill in the blanks in three sentences using the cards provided. Using a square with unconventional thirds.

Questions 3, 6 and 9 (Reasoning and Problem Solving)

Developing Explain which statement is incorrect. Using only circles, squares and quadrilaterals.

Expected Explain which statement is incorrect. Using circles, triangles, quadrilaterals and polygons.

Greater Depth Explain which statement is incorrect. Using circles, triangles, quadrilaterals and polygons.

Recognise a Third

1. Sort these shapes into the table.

| $\frac{1}{3}$ shaded | not $\frac{1}{3}$ shaded |
|----------------------|--------------------------|
| | |

- A.  B.  C.  D.  E. 

VF
HW/Ext

2. Fill in the blanks using the cards below.

one third

3

$\frac{1}{3}$

This shape has been divided into _____ equal parts.

The shaded part is worth _____ .

This is the same as _____ .

VF
HW/Ext

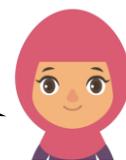

3. Who is incorrect? Explain your answer.

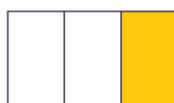

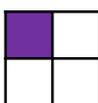

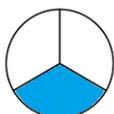

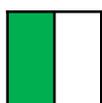

Jakub

2 of these shapes show $\frac{1}{3}$ shaded.

3 of these shapes show $\frac{1}{3}$ shaded.

Naseem

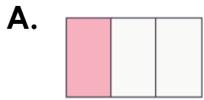

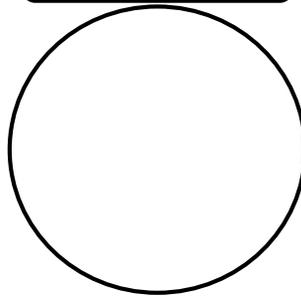

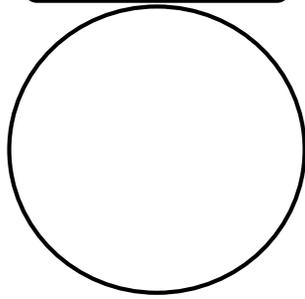

RPS
HW/Ext

Recognise a Third

4. Sort these shapes into the correct hoop.

$\frac{1}{3}$ shaded

not $\frac{1}{3}$ shaded

VF
HW/Ext

5. Fill in the blanks using the cards below.

one third

3

$\frac{1}{3}$

This shape has been divided into _____ equal parts.

The shaded part is worth _____ .

This is the same as _____ .

VF
HW/Ext

6. Who is incorrect? Explain your answer.

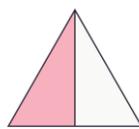

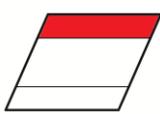

Ling

2 of these shapes show $\frac{1}{3}$ shaded.

4 of these shapes show $\frac{1}{3}$ shaded.

Evie

RPS
HW/Ext

Recognise a Third

7. Sort these shapes into the Carroll diagram.

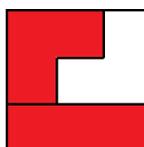

| | | |
|---------------|------------------------|----------------------------|
| | $\frac{1}{3}$ unshaded | not $\frac{1}{3}$ unshaded |
| equal parts | | |
| unequal parts | | |

A.  B.  C.  D.  E.  F. 

VF
HW/Ext

8. Fill in the blanks using the cards below.

one third

3

$\frac{1}{3}$

This shape has been divided into _____ equal parts.

The unshaded part is worth _____.

This is the same as _____.

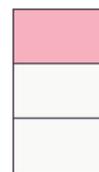

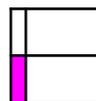

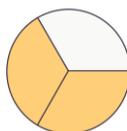

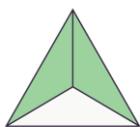

VF
HW/Ext

9. Who is incorrect? Explain your answer.

2 of these shapes show $\frac{1}{3}$ unshaded.

2 of these shapes show $\frac{1}{3}$ shaded.

RPS
HW/Ext

Homework/Extension

Recognise a Third

Developing

- $\frac{1}{3}$ shaded = B, C, E; not $\frac{1}{3}$ shaded = A and D
- This shape has been divided into 3 equal parts. The shaded part is worth one third. This is the same as $\frac{1}{3}$.
- Jakub is incorrect because the two circles and one rectangle both have $\frac{1}{3}$ shaded.

Expected

- $\frac{1}{3}$ shaded = A, D, F; not $\frac{1}{3}$ shaded = B, C, E
- This shape has been divided into 3 equal parts. The shaded part is worth one third. This is the same as $\frac{1}{3}$.
- Evie is incorrect because she has included 2 shapes that have 3 unequal parts.

Greater Depth

7.

| | $\frac{1}{3}$ unshaded | not $\frac{1}{3}$ unshaded |
|---------------|---------------------------|-------------------------------|
| equal parts | A, E, F | C |
| unequal parts | | B, D |

- This shape has been divided into 3 equal parts. The unshaded part is worth one third. This is the same as $\frac{1}{3}$.
- Liam and Alice are both correct. Two of the shapes have $\frac{1}{3}$ unshaded, two shapes have $\frac{1}{3}$ shaded and there is one shape that has 4 unequal parts.
