

Click the picture for a song about the seasons

4

There are four seasons. Let's count them!

4

Every year there are four seasons.

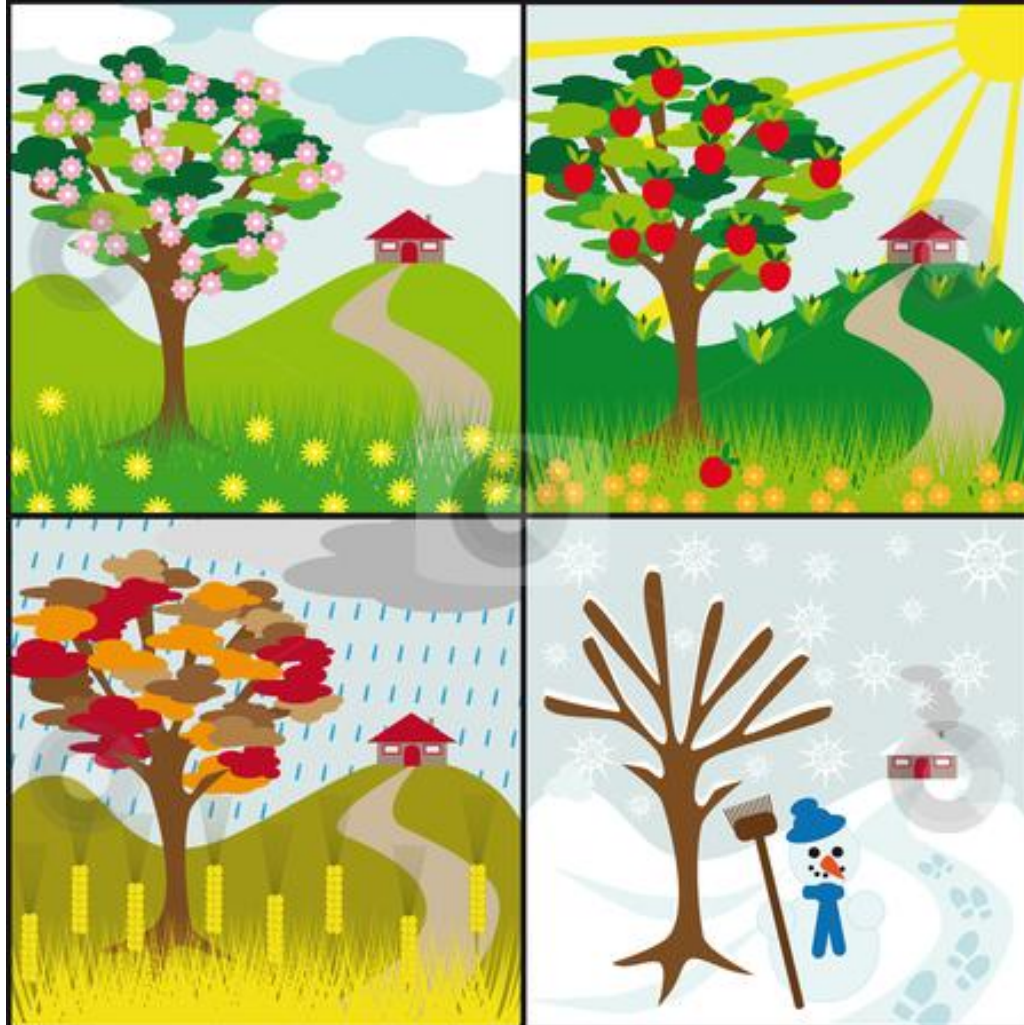

?

What do the seasons look like?

spring

summer

autumn

winter

In summer it

is

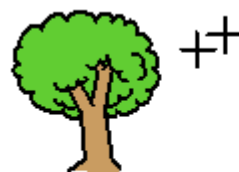

warm

and

light.

The

trees

have

leaves

and

fruit.

People

like

to go

to

the

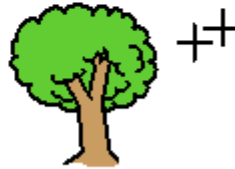

seaside.

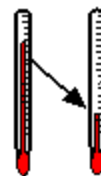

In autumn the leaves change colour

and then fall off the trees.

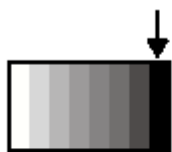

The weather becomes cooler and it might be rainy.

In winter it gets very cold.

Most trees have no leaves

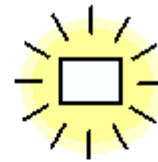

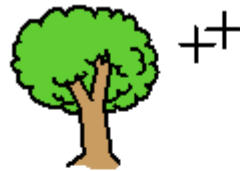

It gets dark early, and light late.

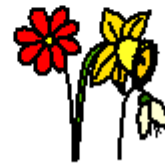

In spring it gets warmer and brighter again.

The trees get new leaves

and lots of flowers bloom.

Lots of baby animals are born.

4

Can you remember the four seasons?

spring

summer

autumn

winter
