

Term 6 Task 4

Still Life with
Lamp'
Pablo Picasso
Oil on canvas
1944

Pablo Picasso,
La Cafetière,
1943

Example of a still life drawing made into a 3D model, inspired by Picasso.

Term 6 Task 4

Look at the still life paintings by Pablo Picasso. Can you notice he has drawn lots of shapes in his picture? What shapes can you see?

Set up an arrangement of items on your table such as fruit, objects or flowers. Draw them and add lots of shapes such as triangles and squares.

Add lots of bright colours to your drawing.

Stick the drawing on to some coloured card and cut out lots of shapes. Like the example on slide 3.

Cut little lines in to the shapes and attach them together to make a 3D model inspired by Picasso's still life paintings. Try and make your model balance.

If you would like to look at any more work by Picasso have a look at this website:
