

Against the Clock Question Cards

Question 1

$$285 + \boxed{} = 335$$

Group Name: _____

Question 2

$$586 - \boxed{} = 496$$

Group Name: _____

Question 3

$$\boxed{} + 30 = 335$$

Group Name: _____

Question 4

$$\boxed{} - 50 = 287$$

Group Name: _____

Question 5

$$938 - 500 = \boxed{}$$

Group Name: _____

Question 6

$$287 + 90 = \boxed{}$$

Group Name: _____

Question 7

$$993 + 9 = \boxed{}$$

Group Name: _____

Question 8

$$693 + 700 = \boxed{}$$

Group Name: _____

Question 9

$$403 - 7 = \boxed{}$$

Group Name: _____

Against the Clock Question Cards

$$285 + 60 =$$

Group Name: _____

Against the Clock Question Cards

Question 19

$$928 + 300 = \boxed{}$$

Group Name: _____

Question 20

$$309 - \boxed{} = 269$$

Group Name: _____

Question 21

$$\boxed{} + 70 = 1052$$

Group Name: _____

Question 22

$$58\boxed{} - 200 = 3\boxed{}6$$

Group Name: _____

Question 23

$$925 + \boxed{} = 97\boxed{}$$

Group Name: _____

Question 24

$$4\boxed{}6 - 9 = 47\boxed{}$$

Group Name: _____

Against the Clock Question Card **Answers**

1. $285 + 50 = 335$	2. $586 - 90 = 496$
3. $539 + 30 = 569$	4. $337 - 50 = 287$
5. $938 - 500 = 438$	6. $287 + 90 = 377$
7. $993 + 9 = 1002$	8. $693 + 700 = 1393$
9. $403 - 7 = 396$	10. Shopkeeper Sam had 495 jellies and 60 fizzy bottles. How many sweets did he have altogether? 555 sweets
11. A firework shop had 284 rockets. They sold 30 rockets. How many rockets did they have left in the shop? 254 rockets	12. Margot had been saving her pocket money. She had saved £112. She bought a game priced £50. How much money does she have left? £62
13. $683 - 70 = 613$	14. Ferooza made 342 samosas. She gave 200 to her friends. How many does she have left? 142 samosas
15. Hamid has 459 football player cards. He went to the shop and bought 8 more cards. How many football player cards does he have now? 467 football player cards	16. Martha had 128 pound coins in a jar. While cleaning, she knocked the jar over and the coins spilled onto the floor. When she had finished picking the coins up, she only counted 88 coins. How many coins are missing? 40 pound coins
17. $495 - 70 = 425$	18. $285 + 60 = 345$
19. $928 + 300 = 1228$	20. $309 - 40 = 269$
21. $982 + 70 = 1052$
