# You will need

- White cards

- Scrapbook paper

- Woven ribbon

- Plastic buttons

To make

1. Cut out two Christmas trees shapes from decorative paper, one slightly larger than the other. Glue the larger tree to the front of the card.

2. Fold the smaller tree shape in half and press the fold flat. Apply a strip of glue at the fold line and stick to the middle of the first tree.

3. Finish with tiny green buttons glued to the end of each branch. Stick a ribbon bow at the top of the tree.
