How can I use this with my children?

When writing to Father Christmas, your child can use this template to help them structure their letter. You could also encourage your child to write letters to friends and family to open on Christmas morning.

How does this help my children's learning?

Writing is a key skill as is being able to write with kindness. Sitting down to think about the content of the letter and process thoughts before they put pen to paper can help them to write thoughtfully. Having lines already on the paper can help children to space out their writing.
