

## Maths Tasks

1. Using the number square, practice counting to 100. Next, practice counting in 10s, 5s and 2s.
2. Using the number formation sheets practice writing numbers.
3. Learn about capacity by going through the capacity power point.

## Art Tasks

1. Look at the colour wheel power point. Colour in the last two sheets on the power point to show that you understand how to make secondary colours.
