

## Preparing for a picnic

You have been asked to prepare a light lunch for you and a friend to take on a walk with you.

You will need to choose your ingredients and then budget using online shopping to check prices. You have a budget of £10 to spend on both of you.

Once you have worked out how much the food will cost, you will need to find out how much change you will have from £10.

### **Plan of Action**

First, decide on the food you need to buy. You need to get everything on your list – even if you have it indoors at the moment!

Item	Amount needed	Cost in £
EG. Loaf of bread	1	

Next, check on the ASDA website to find out the costs of the items you need to buy. Remember, some things may come in packs of 4 or 6 but you will need to buy the smallest amount to have enough and include this in your budget.

Fill in the cost column on your table.

[Online Food Shopping - ASDA Groceries](#)

Item	Amount needed	Cost in £
EG. Loaf of bread	1	0.89

Finally, do you have enough money?

Add up all your items and if you have enough, how much change will you have left over?
