LI: To use a map to identify key areas within our local community

I begin to use a street map to identify key areas of my town.

I begin to identify the meaning of different symbols on the map.

Look at the street view of the chosen location of the town (familiar to your child).

Discuss different symbols on the map (e.g. school, car park, cemetery, Lidl, Sainsburys, Fish and chip shop, petrol station, park, train station etc). Click on the symbols to reveal the images. Identify your house. Can you find a route to your supermarket? Can you find a route to the park? Sainsburys? etc.
