

**LI: I can identify a number of light sources.**

I can name some light sources in my house.

I can recognise objects that do not create any light.

Watch and discuss PowerPoint *Sources of Light discussion prompt* presentation.

Task 1: To look for different sources of light in your house. Take photos.

Can you find additional sources of light in your house? (e.g. various torches, light toys, Christmas lights and objects that don't create any light). Take photos.

Encourage your child to think of how these objects light up. Is it because some have batteries? What objects use electricity?

Task 2:

Medium: To identify natural and man-made sources of light.

(See HA worksheet).

Medium and Easy: Light sources. Differentiated worksheets.

Plenary: *Sources of light* PowerPoint and Poster *Can you spot different light sources?*
