Meet Quizby!

Can you spot me in the
Lesson Presentation?

The questions that appear will help
you to think about the key learning
throughout the lesson.

Aim

- To identify and name some common animals.

Success Criteria

- I can name some common animals.
- I can name the groups of animals including fish, mammals, birds, reptiles and amphibians.
- I can identify what groups animals belong to.

Remember It

Pretend I have never seen an animal.
How would you describe what an animal is?

X

What is an animal?

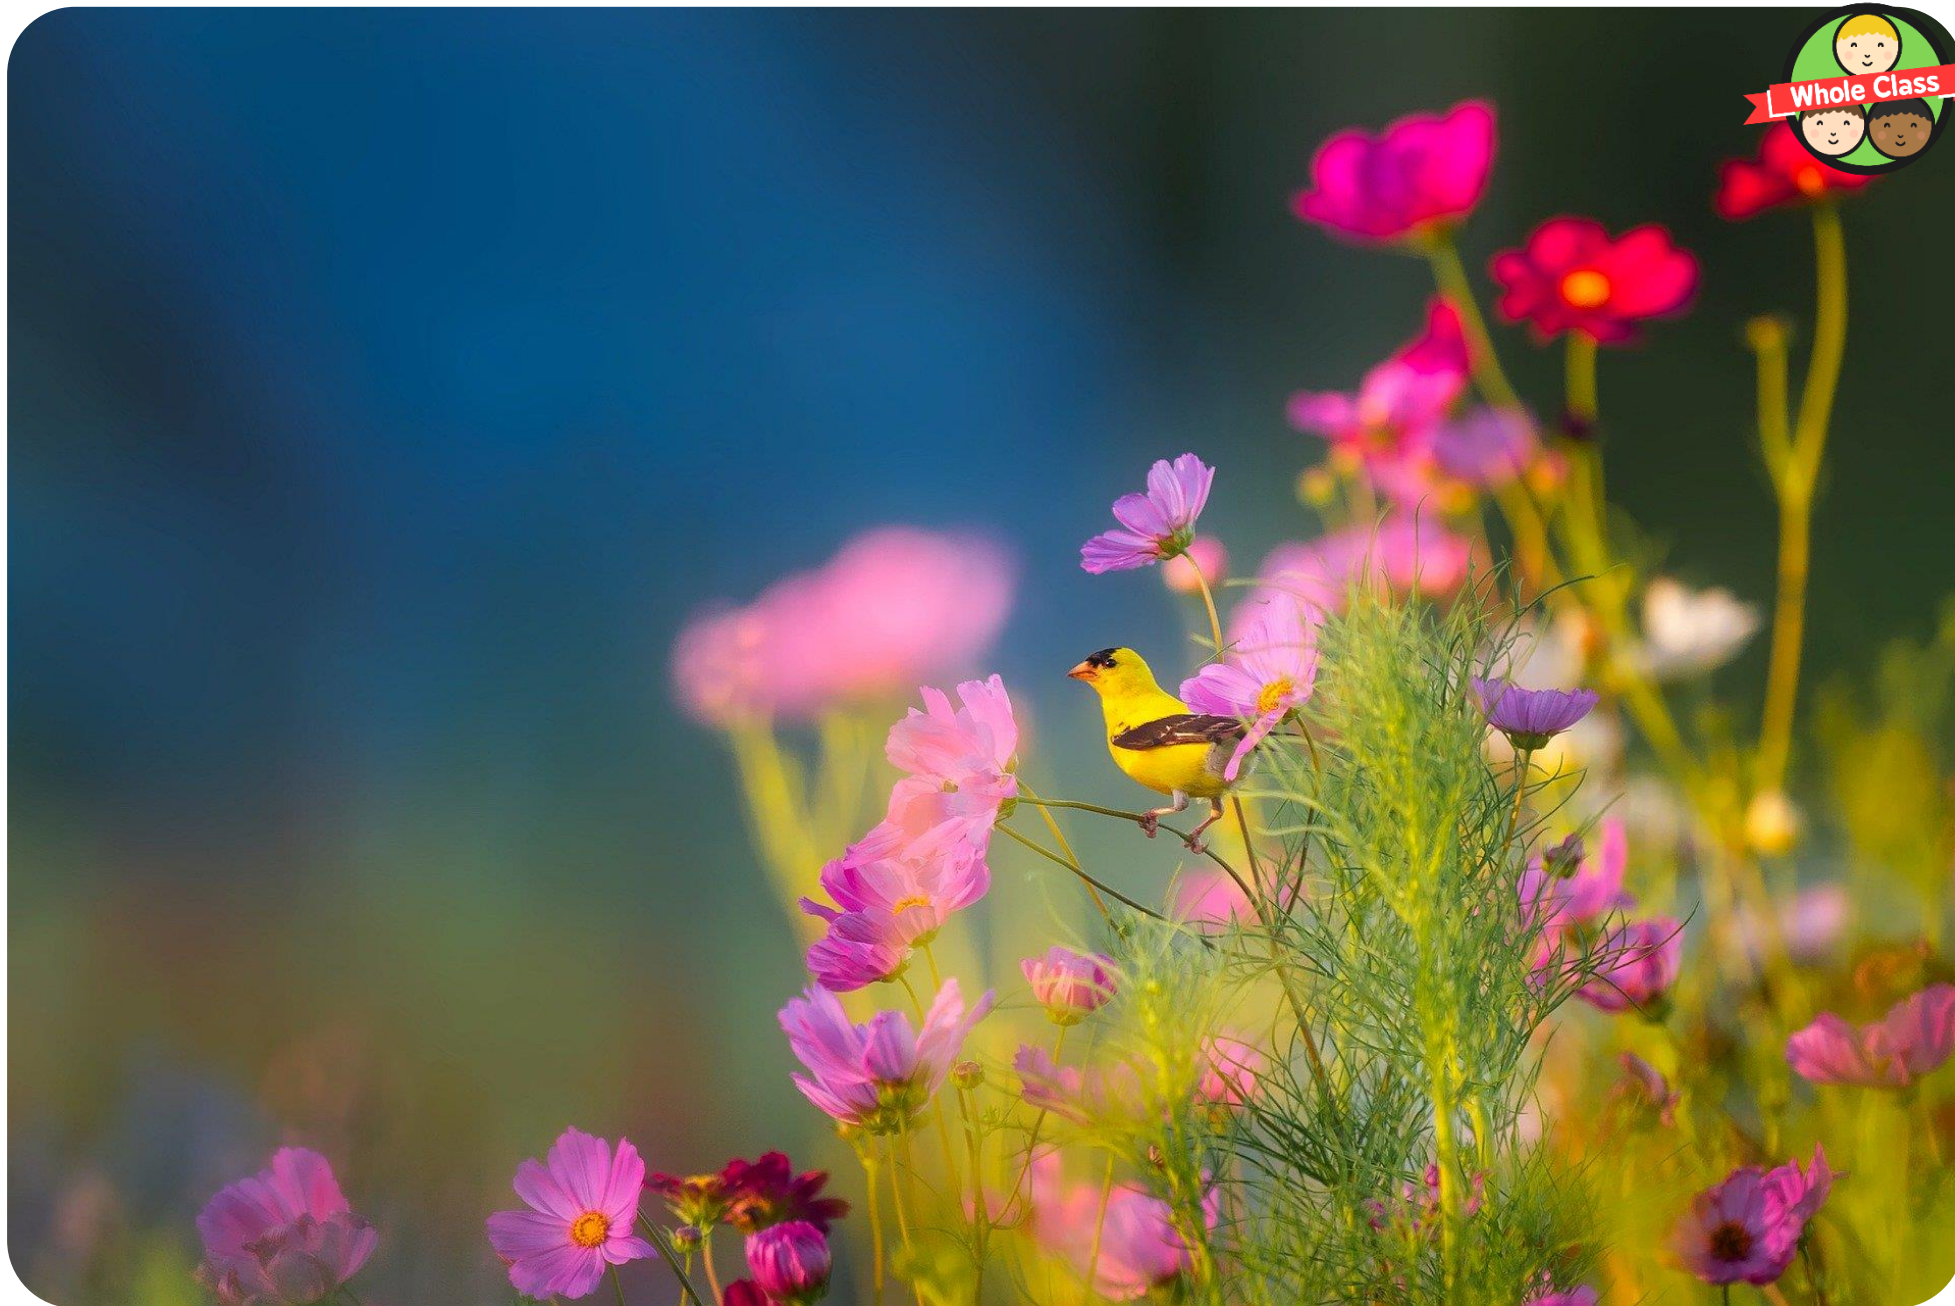

Can you spot the animals in these pictures?

Look carefully. How do you know they are animals?

Different Types of Animals

There are lots of different animals.
Scientists sort them into groups to help to identify them.

Here are some of the animal groups that they can be sorted into:

mammals

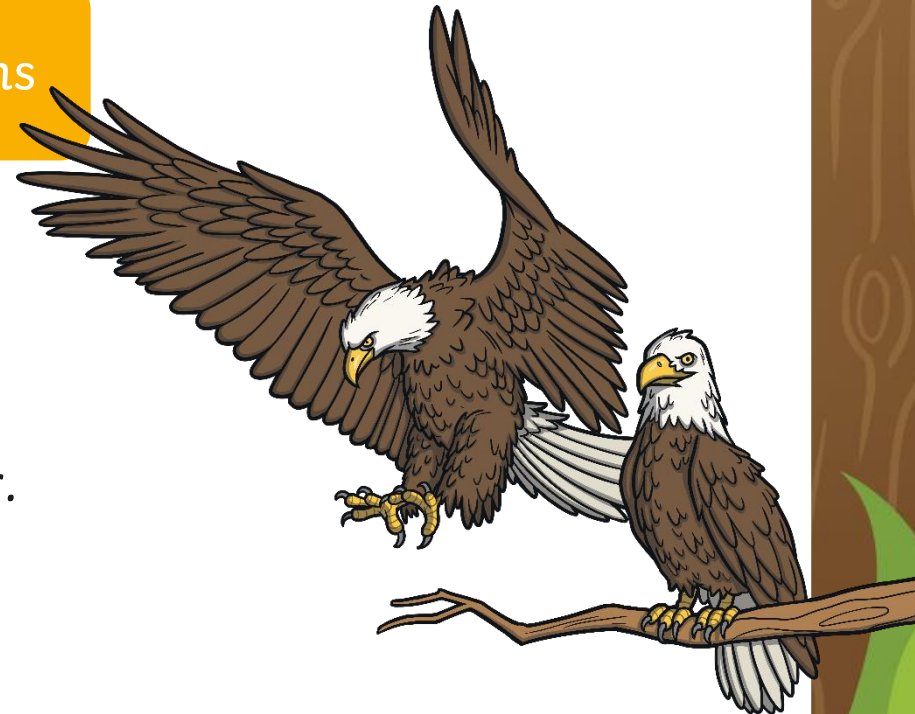

birds

amphibians

fish

reptiles

These groups are on your knowledge organiser.

Different Types of Animals

Do you know the names of these animals?
Do you know what type of animal they are?

pigeon

flamingo

chicken

These animals are birds.

Different Types of Animals

Here are some more birds. Do you know any of their names?

robin

penguin

magpie

Where might you see birds?

Different Types of Animals

Do you know the names of these animals?
Do you know what type of animal they are?

human

dog

monkey

These animals are man

Did you
know
?

You are an animal
and you belong to the
mammal group.

Different Types of Animals

Here are some more mammals. Do you know any of their names?

cow

elephant

hedgehog

Where might you see mammals?

Different Types of Animals

Do you know the names of these animals?
Do you know what type of animal they are?

goldfish

shark

These animals are fish.

Different Types of Animals

Here are some more fish. Do you know any of their names?

trout

pufferfish

clownfish

Where might you see fish?

Different Types of Animals

Do you know the names of these animals?
Do you know what type of animal they are?

crocodile

tortoise

These animals are reptiles.

Different Types of Animals

Here are some more reptiles. Do you know any of their names?

chameleon

snake

Where might you see reptiles?

Different Types of Animals

Do you know the names of these animals?
Do you know what type of animal they are?

frog

newt

These animals are amphibians.

Different Types of Animals

Here are some more amphibians. Do you know any of their names?

toad

salamander

Where might you see amphibians?

Animals All Around Us

Which of these animal groups do you see most of?

human

mouse

mammals

dog

cow

penguin

chicken

birds

flamingo

robin

goldfish

tuna

fish

shark

eel

snake

tortoise

reptiles

lizard

alligator

frog

toad

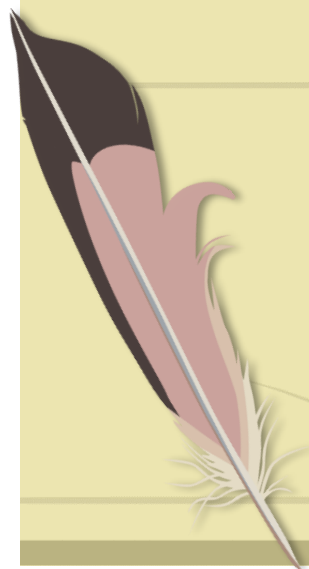

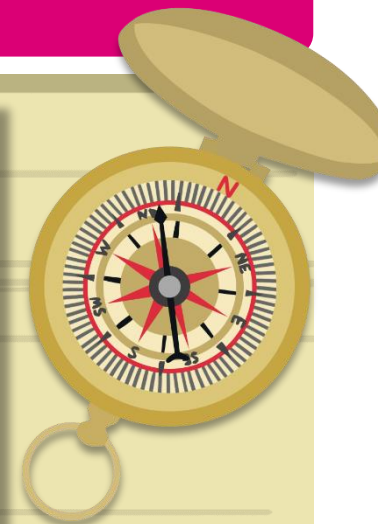

amphibians

newt

salamander

Animals All Around Us

Where do you see these animals?
Will they be able to fly, swim or climb trees?

human

mouse

mammals

dog

cow

penguin

chicken

birds

flamingo

robin

goldfish

tuna

fish

shark

eel

snake

tortoise

reptiles

lizard

alligator

frog

toad

amphibians

newt

salamander

Animals All Around Us

Which types of animals do you think will not live around our school?
Why?

 human	 mouse	mammals	 dog	 cow
 penguin	 chicken	birds	 flamingo	 robin
 goldfish	 tuna	fish	 shark	 eel
 snake	 tortoise	reptiles	 lizard	 alligator
 frog	 toad	amphibians	 newt	 salamander

Observing Animals

How can we find out if we are right about the types of animals that might live around our school and the types that don't?
What could we do?

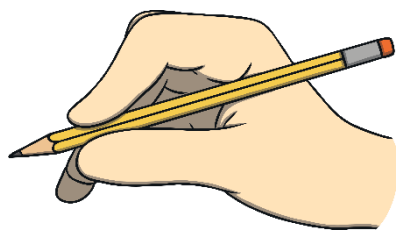

We are going to go outside to look for animals.

Observing Animals

Whenever you see an animal, draw a picture and write down its name (if you know it) and where you saw it on your **Observing Animals Activity Sheet**.

Then, use the **Animal Groups Key** to try and work out what group it belongs to.

Animal Groups Key

Mammals

Birds

Fish

Observing Animals

To identify and name some common animals.

Draw a picture or write the name of each animal you see and where you see it (in the sky, in a tree). Use the Animal Groups Key to help you to identify which group it is from.

	Name: _____ Where: _____ Group: _____		Name: _____ Where: _____ Group: _____
	Name: _____ Where: _____ Group: _____		Name: _____ Where: _____ Group: _____
	Name: _____ Where: _____ Group: _____		Name: _____ Where: _____ Group: _____

Observing Animals

Make sure you have:

- a pencil
- your **Observing Animals Activity Sheet**
- your **Animal Groups Key**

Animal Groups Key

Mammals

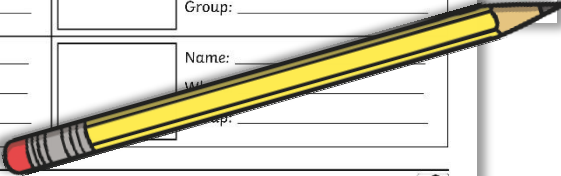

Observing Animals

To identify and name some common animals.

Draw a picture or write the name of each animal you see and where you see it (in the sky, in a tree). Use the Animal Groups Key to help you to identify which group it is from.

	Name: _____ Where: _____ Group: _____		Name: _____ Where: _____ Group: _____
	Name: _____ Where: _____ Group: _____		Name: _____ Where: _____ Group: _____
	Name: _____ Where: _____ Group: _____		Name: _____ Where: _____ Group: _____

Observing Animals

To identify and name some common animals.

Draw a picture or write the name of each animal you see and where you see it (in the sky, in a tree). Use the Animal Groups Key to help you to identify which group it is from.

	Name: sheep Where: in a field Group: mammal		Name: _____ Where: _____ Group: _____
	Name: _____ Where: _____ Group: _____		Name: _____ Where: _____ Group: _____
	Name: _____ Where: _____ Group: _____		Name: _____ Where: _____ Group: _____

Answering Questions

Let's look at the types of animals we thought might live around our school.

X

Which animal groups did you see?

X

What did you notice about the animals that live around our school?

X

Which animal groups did you not see? Why do you think this is?

Answering Questions

Looking at our observations, we can say that these animals live in our local area:

because...

The animals around our school have ...

We don't think these animals live near our school...

because ...

Aim

- To identify and name some common animals.

Success Criteria

- I can name some common animals.
- I can name the groups of animals including fish, mammals, birds, reptiles and amphibians.
- I can identify what groups animals belong to.
