

A vibrant, cartoon-style illustration of a woodland scene. In the foreground, a large orange fox with a white chest patch stands on the right. To its left, a badger with black and white stripes is partially visible. Further left, a hedgehog is curled up near some grey rocks. In the middle ground, a blue and yellow bird sits on a branch, and a dark grey bird is perched on a bush. A small owl is visible in the upper left, and a butterfly is on the right. The background is filled with tall, thin trees and dense green foliage. The title 'Woodland Animal Habitats' is written in large, white, bold letters across the center.

Woodland Animal Habitats
